FINE BENCH MADE FURNITURE

## 3007 Assembly Guide

Step 1: Position the side sections right next to the center section so that all doors are facing one side (see figure A)

Step 2: Slide one of the side sections towards the center section so that each of their plain side sections and back panels are flush with one another (see figure B).

Step 3: Locate the pre-drilled holes inside the side section.

Step 4: Using the screws provided, attach the side section to the center section by drilling through the holes from the side section toward the center section.

Step 5: Repeat steps 2 to 4 with the remaining side section.

Step 6: Install the down lighting located on top of the side sections (see figure C) as detailed in a previous page titled "Installing the Lighting."

Step 7: Slide the crown (see figure C) on top of the main assembly.
